

NATIONAL NATURAL GAS TRANSMISSION SYSTEM (NNGTS) MAINTENANCE PLAN YEAR 2017 - Rev. 1

No.	WORKS	PERIOD	MAINTENANCE DAYS	REMARKS
1	Valve replacement at Line-Valve Pentalofof	May 17 - 18	2	Reception Transmission Capacity of Exit Point 'THESSALONIKI': 19,425.632 MWh/Day
				Reception Transmission Capacity of Exit Point 'ENERGIAKI THESS. (ELPE)': 0 MWh/Day
				Reception Transmission Capacity of Exit Point 'ELPE': 0 MWh/Day
2	Maintenance at Nea Mesimvria Compression Station	May 30 - 31	2	Delivery Transmission Capacity of Entry Point 'SIDIROKASTRON': 57,479.978 MWh/Day
				Delivery Transmission Capacity of Entry Point 'KIPI': 17,000.000 MWh/Day
3	Installation of third metering line at Thessaloniki East (U-2220) M/R Station	May 31 - June 4	5	Reception Transmission Capacity of Exit Point 'THESSALONIKI': 19,425.632 MWh/Day
4	Installation of third metering line at Thessaloniki North (U-2240) M/R Station	June 12 - July 7	5	Reception Transmission Capacity of Exit Point 'THESSALONIKI': 19,425.632 MWh/Day
5	- Maintenance at Border Metering Station (BMS) Sidirokastron - Maintenance at Nea Mesimvria Compression Station	June 27 - 30	4	Delivery Transmission Capacity of Entry Point 'SIDIROKASTRON': 54,307.934 MWh/Day
				Delivery Transmission Capacity of Entry Point 'KIPI': 17,000.000 MWh/Day
6	Maintenance at Nea Mesimvria Compression Station	August 29 -September 01	4	Delivery Transmission Capacity of Entry Point 'SIDIROKASTRON': 39,916.651 MWh/Day
				Delivery Transmission Capacity of Entry Point 'KIPI': 25,000.000 MWh/Day (for the Days August 29 and 30)

Note:

Maintenance works dates at the upstream Connected Natural Gas Transmission Systems that affect the flow of Natural Gas to the NNGTS:

- a) 27.06.2017 08:00 - 01.07.2017 08:00 (4 maintenance Days); the flow of Natural Gas to the NNGTS through Entry Point 'SIDIROKASTRON' is reduced to 54,307.934 MWh/Day
- b) 29.08.2017 08:00 - 31.08.2017 08:00 (2 maintenance Days); the flow of Natural Gas to the NNGTS through Entry Point 'SIDIROKASTRON' is reduced to 39,916.651 MWh/Day
- c) 31.08.2017 08:00 - 02.09.2017 08:00 (2 maintenance Days); the flow of Natural Gas to the NNGTS through Entry Point 'SIDIROKASTRON' is reduced to 0 MWh/Day
- d) 02.09.2017 08:00 - 05.09.2017 08:00 (3 maintenance Days); the flow of Natural Gas to the NNGTS through Entry Point 'SIDIROKASTRON' is reduced to 91,542.187 MWh/Day
